# **BIATHLON TRAINING CENTRE – PROGRAM OVERVIEW**

## **Summary**

Biathlon Alberta, the provincial governing body for the sport of biathlon in Alberta, created the Biathlon Alberta Training Centre (BATC) in April 2011. The purpose of the BATC, located in Canmore, is to provide focused year-round training to committed biathletes aged 18 to 23 years.

The BATC is managed by Biathlon Alberta, a volunteer-driven sport organization and recognized leader amongst provincial sport organizations in Canada.

## **Biathlon Alberta Training Centre Program Description**

The Biathlon Alberta Training Centre in Canmore, Alberta is dedicated to developing committed athletes in the sport of biathlon. As a training centre our goals also are to further the development of programs and services for athletes, coaches, and officials to strengthen the sport in Canada.

### **Vision**

Athletes, Coaches, and Officials from the BATC will be recognized leaders of, and contributors to, Canada's national biathlon program.

### **Mission**

To initiate and augment development opportunities in Alberta that target nationally competitive athletes, coaches, and officials, preparing them for subsequent levels of success.

The BATC will:

- Deliver an athlete development system that supplements and supports existing local, regional and national programs, respecting the "Long Term Development Model" Canada has adapted
- Expand development opportunities for coaches, athletes and officials

## **Athlete Development**

The tenets of athlete development are:

1. Provide programs that are unique in Canada, are athlete centered, and set new standards for athlete performance.
2. Prepare athletes to be ready for entry to national teams, and for international success.
3. Support all athletes with the same levels of technical support, regardless of their performance profile.
4. Maintain a coach to athlete ratio at roughly 8:1 or less.
5. Accommodate full time year round training and competition schedules.

## Athlete Progression

The BATC is targeted at athletes between 18-23 years old who have graduated high school and are focused and committed to performance in biathlon. Biathlon Alberta Training Centre athletes are expected to make a year-round commitment to the sport and the team. Ideal candidates are athletes training for long term international success. Part-time school is encouraged for all athletes.

The Biathlon Alberta Training Centre is based in the Bow Corridor (Canmore, Banff area). Athletes are expected to reside in Canmore.

Specific training plans will be centered on individual athlete goals and individual athlete development, and where appropriate, racing events will focus on performance at:

- Trials for World Youth Junior Championships and IBU/WC
- Trials for Provincial Teams for Canada Games
- IBU Cup
